# Orchid Plants

Cattleya, Cymbidium, Phalaenopsis and "Rare Birds" are offered in this catalogue in both seedling and mature plant sizes. Our shipping season is from April 15th to November 1st. Prices of all plants are based upon a combination of both plant size and hybrid quality. Hybrid names follow those in the latest edition of Sanders list where possible.

We especially invite your attention to the Cattleya hybrids made with our justly famous LC. Red Oak, C. Joyce Hannington, C. Lady Veitch, and C. Monona as one parent. We believe all of these crosses will be of exceptionally fine quality and will seriously merit your consideration if you are building up a collection of outstanding Cattleyas.

Plants will be shipped by Railway Express on the mainland and by Air Express overseas unless otherwise specified. We qualify for shipments to Hawaii and need only your permit number to complete the shipment. Terms: cash with order; \$10.00 minimum; packing free of charge; shipping costs are in addition.
